SUMMARY

I am a Computer Science and Information Technology(CSIT) undergrad. I am a self-motivated person ready to contribute to customers and businesses demanding tact, enthusiasm, and an exemplary work ethic.

EXPERIENCE

Small and Large Projects

I am confident with my skills and have a solid understanding of technologies around mobile and web development. I have done many small and few fullstack projects. I can use my skills to help create products that can add value to a business and clients.

I can :
- Create responsive and interactive apps.
- Consume APIs and create user friendly interfaces.
- Create and Integrate backend for web and mobile apps.

Volunteer and Leadership

- Vice President of Himalaya Information Technology Club.
- Organizer of Himalaya Exhibition and hackathon.
- Hex hackathon runner ups.
- Trained juniors on frontend web development as vice president of Himalaya Information Technology Club.
- Member of CSIT Association of Nepal.
